367 messages · 4 participants · Thursday, January 8, 2026 to Wednesday, January 21, 2026

Thursday, January 8, 2026

Jonah

09:07 AM

The PDF should keep the sender names and times visible so the decisions are easy to trace.

Priya

09:14 AM

That works for me. I have marked the paragraph that still needs approval from the client.

Theo

09:21 AM

Can we keep the image references beside the messages instead of moving them into a separate list?

Maya

10:28 AM

Yes. The demo export is synthetic, but it follows the same layout as a normal converted chat.

Jonah

10:35 AM

I checked the totals against the spreadsheet and the figures now reconcile correctly.

Priya

10:42 AM

Please add a short note explaining that this conversation was created only for the product demonstration.

Theo

10:49 AM

Done. The next checkpoint is Thursday morning, and I will circulate the final agenda beforehand.

Jonah

11:03 AM

The PDF should keep the sender names and times visible so the decisions are easy to trace.

Priya

11:10 AM

That works for me. I have marked the paragraph that still needs approval from the client.

Theo

11:17 AM

Can we keep the image references beside the messages instead of moving them into a separate list?

Maya

12:24 PM

Yes. The demo export is synthetic, but it follows the same layout as a normal converted chat.

Jonah

12:31 PM

I checked the totals against the spreadsheet and the figures now reconcile correctly.

Priya

12:38 PM

Please add a short note explaining that this conversation was created only for the product demonstration.

Theo

12:45 PM

Done. The next checkpoint is Thursday morning, and I will circulate the final agenda beforehand.

Jonah

01:59 PM

The PDF should keep the sender names and times visible so the decisions are easy to trace.

Priya

01:06 PM

That works for me. I have marked the paragraph that still needs approval from the client.

Theo

01:13 PM

Can we keep the image references beside the messages instead of moving them into a separate list?

Maya

02:20 PM

Yes. The demo export is synthetic, but it follows the same layout as a normal converted chat.

Jonah

02:27 PM

I checked the totals against the spreadsheet and the figures now reconcile correctly.

Priya

02:34 PM

Please add a short note explaining that this conversation was created only for the product demonstration.

Theo

02:41 PM

Done. The next checkpoint is Thursday morning, and I will circulate the final agenda beforehand.

Jonah

03:55 PM

The PDF should keep the sender names and times visible so the decisions are easy to trace.

Priya

03:02 PM

That works for me. I have marked the paragraph that still needs approval from the client.

Theo

03:09 PM

Can we keep the image references beside the messages instead of moving them into a separate list?

Maya

04:16 PM

Yes. The demo export is synthetic, but it follows the same layout as a normal converted chat.

Jonah

04:23 PM

I checked the totals against the spreadsheet and the figures now reconcile correctly.

Priya

04:30 PM

Please add a short note explaining that this conversation was created only for the product demonstration.

Theo

04:37 PM

Done. The next checkpoint is Thursday morning, and I will circulate the final agenda beforehand.

Friday, January 9, 2026

Jonah

09:51 AM

The PDF should keep the sender names and times visible so the decisions are easy to trace.

Priya

09:58 AM

That works for me. I have marked the paragraph that still needs approval from the client.

Theo

09:05 AM

Can we keep the image references beside the messages instead of moving them into a separate list?

Maya

10:12 AM

Yes. The demo export is synthetic, but it follows the same layout as a normal converted chat.

Jonah

10:19 AM

I checked the totals against the spreadsheet and the figures now reconcile correctly.

Priya

10:26 AM

Please add a short note explaining that this conversation was created only for the product demonstration.

Theo

10:33 AM

Done. The next checkpoint is Thursday morning, and I will circulate the final agenda beforehand.

Jonah

11:47 AM

The PDF should keep the sender names and times visible so the decisions are easy to trace.

Priya

11:54 AM

That works for me. I have marked the paragraph that still needs approval from the client.

Theo

11:01 AM

Can we keep the image references beside the messages instead of moving them into a separate list?

Maya

12:08 PM

Yes. The demo export is synthetic, but it follows the same layout as a normal converted chat.

Jonah

12:15 PM

I checked the totals against the spreadsheet and the figures now reconcile correctly.

Priya

12:22 PM

Please add a short note explaining that this conversation was created only for the product demonstration.

Theo

12:29 PM

Done. The next checkpoint is Thursday morning, and I will circulate the final agenda beforehand.

Jonah

01:43 PM

The PDF should keep the sender names and times visible so the decisions are easy to trace.

Priya

01:50 PM

That works for me. I have marked the paragraph that still needs approval from the client.

Theo

01:57 PM

Can we keep the image references beside the messages instead of moving them into a separate list?

Maya

02:04 PM

Yes. The demo export is synthetic, but it follows the same layout as a normal converted chat.

Jonah

02:11 PM

I checked the totals against the spreadsheet and the figures now reconcile correctly.

Priya

02:18 PM

Please add a short note explaining that this conversation was created only for the product demonstration.

Theo

02:25 PM

Done. The next checkpoint is Thursday morning, and I will circulate the final agenda beforehand.

Jonah

03:39 PM

The PDF should keep the sender names and times visible so the decisions are easy to trace.

Priya

03:46 PM

That works for me. I have marked the paragraph that still needs approval from the client.

Theo

03:53 PM

Can we keep the image references beside the messages instead of moving them into a separate list?

Maya

04:00 PM

Yes. The demo export is synthetic, but it follows the same layout as a normal converted chat.

Jonah

04:07 PM

Priya

09:50 AM

That works for me. I have marked the paragraph that still needs approval from the client.

Theo

09:57 AM

Can we keep the image references beside the messages instead of moving them into a separate list?

Maya

10:04 AM

Yes. The demo export is synthetic, but it follows the same layout as a normal converted chat.

Jonah

10:11 AM

I checked the totals against the spreadsheet and the figures now reconcile correctly.

Priya

10:18 AM

Please add a short note explaining that this conversation was created only for the product demonstration.

Theo

10:25 AM

Done. The next checkpoint is Thursday morning, and I will circulate the final agenda beforehand.

Jonah

11:39 AM

The PDF should keep the sender names and times visible so the decisions are easy to trace.

Priya

11:46 AM

That works for me. I have marked the paragraph that still needs approval from the client.

Theo

11:53 AM

Can we keep the image references beside the messages instead of moving them into a separate list?

Maya

12:00 PM

Yes. The demo export is synthetic, but it follows the same layout as a normal converted chat.

Jonah

12:07 PM

I checked the totals against the spreadsheet and the figures now reconcile correctly.

Priya

12:14 PM

Please add a short note explaining that this conversation was created only for the product demonstration.

Theo

12:21 PM

Done. The next checkpoint is Thursday morning, and I will circulate the final agenda beforehand.

Jonah

01:35 PM

The PDF should keep the sender names and times visible so the decisions are easy to trace.

Priya

01:42 PM

That works for me. I have marked the paragraph that still needs approval from the client.

Theo

01:49 PM

Can we keep the image references beside the messages instead of moving them into a separate list?

Maya

02:56 PM

Yes. The demo export is synthetic, but it follows the same layout as a normal converted chat.

Jonah

02:03 PM

I checked the totals against the spreadsheet and the figures now reconcile correctly.

Priya

02:10 PM

Please add a short note explaining that this conversation was created only for the product demonstration.

Theo

02:17 PM

Done. The next checkpoint is Thursday morning, and I will circulate the final agenda beforehand.

Jonah

03:31 PM

The PDF should keep the sender names and times visible so the decisions are easy to trace.

Priya

03:38 PM

That works for me. I have marked the paragraph that still needs approval from the client.

Theo

03:45 PM

Can we keep the image references beside the messages instead of moving them into a separate list?

Maya

04:52 PM

Yes. The demo export is synthetic, but it follows the same layout as a normal converted chat.

Jonah

04:59 PM

I checked the totals against the spreadsheet and the figures now reconcile correctly.

Priya

04:06 PM

Please add a short note explaining that this conversation was created only for the product demonstration.

Theo

04:13 PM

Done. The next checkpoint is Thursday morning, and I will circulate the final agenda beforehand.

Sunday, January 18, 2026

Jonah

09:27 AM

The PDF should keep the sender names and times visible so the decisions are easy to trace.

Priya

09:34 AM

That works for me. I have marked the paragraph that still needs approval from the client.

Theo

09:41 AM

Can we keep the image references beside the messages instead of moving them into a separate list?

Maya

10:48 AM

Yes. The demo export is synthetic, but it follows the same layout as a normal converted chat.

Jonah

10:55 AM

I checked the totals against the spreadsheet and the figures now reconcile correctly.

Priya

10:02 AM

Please add a short note explaining that this conversation was created only for the product demonstration.

Theo

10:09 AM

Done. The next checkpoint is Thursday morning, and I will circulate the final agenda beforehand.

Jonah

11:23 AM

The PDF should keep the sender names and times visible so the decisions are easy to trace.

Priya

11:30 AM

That works for me. I have marked the paragraph that still needs approval from the client.

Theo

11:37 AM

Can we keep the image references beside the messages instead of moving them into a separate list?

Maya

12:44 PM

Yes. The demo export is synthetic, but it follows the same layout as a normal converted chat.

Jonah

12:51 PM

I checked the totals against the spreadsheet and the figures now reconcile correctly.

Priya

12:58 PM

Please add a short note explaining that this conversation was created only for the product demonstration.

Theo

12:05 PM

Done. The next checkpoint is Thursday morning, and I will circulate the final agenda beforehand.

Jonah

01:19 PM

The PDF should keep the sender names and times visible so the decisions are easy to trace.

Priya

01:26 PM

That works for me. I have marked the paragraph that still needs approval from the client.

Theo

01:33 PM

Can we keep the image references beside the messages instead of moving them into a separate list?

Maya

02:40 PM

Yes. The demo export is synthetic, but it follows the same layout as a normal converted chat.

Jonah

02:47 PM

I checked the totals against the spreadsheet and the figures now reconcile correctly.

Priya

02:54 PM

Please add a short note explaining that this conversation was created only for the product demonstration.

Theo

02:01 PM

Done. The next checkpoint is Thursday morning, and I will circulate the final agenda beforehand.

Jonah

03:15 PM

The PDF should keep the sender names and times visible so the decisions are easy to trace.

Priya

03:22 PM

That works for me. I have marked the paragraph that still needs approval from the client.
